Carbon Reduction Plan

Ever-So-Lean Limited
Publication Date: May 2026

Commitment to Achieving Net Zero

Ever-So-Lean Limited is committed to reducing its environmental impact and working towards Net Zero greenhouse gas emissions. The organisation seeks to minimise emissions through responsible travel, digital delivery, reduced paper usage and efficient use of resources.

Baseline Emissions Footprint

Baseline Year: 2026 (first year of incorporation)
Scope 1: Not currently measured
Scope 2: Not currently measured
Scope 3: Not currently measured

As the company was incorporated on 1 April 2026, a full baseline year of emissions data is not yet available.

Carbon Reduction Initiatives

- Maximise virtual delivery where appropriate
- Reduce unnecessary travel through efficient scheduling
- Use digital learning materials and documentation
- Minimise printing and paper consumption
- Review travel and operational emissions annually
